On October 23<sup>rd</sup>, Del Conte, Hyde, Annello & Schuch's very own Melissa Unnever participated in The American Cancer Society's Making Strides Against Breast Cancer walk. More than just a walk, the Making Strides Against Breast Cancer event describes the progress that the participants are making together to save lives by helping people get well, stay well, find cure and fight back.

Melissa's team, "Unnevers Winners" raised over \$1,900. This was her 6<sup>th</sup> year walking and Melissa herself is a 6-year survivor. There were over 4,000 participants who walked in the event this past October. "There was pink everywhere and everyone was in a high spirit to celebrate their own personal story or experience with this disease," said Melissa. "My own team of doctors, physician assistants and nursing staff walk this event every year. I saw their support for this great cause and it became contagious."
